

- Focus on quality growth companies that are predominantly domestically-driven
- Highly differentiated, thematic approach with focus on smaller markets, wide-moat global leaders (and significant off-index exposure)
- Multi-cap strategy, investing across the market spectrum regardless of company size
- ESG fully integrated into the investment process, supporting risk mitigation

## Fund Objective

The Alquity Asia Fund is equity focused and targets attractive risk-adjusted returns over the long-term by investing in public companies across the Asian continent (ex. Japan). Our portfolio emphasises long-term themes, transparency and alignment of management. This is achieved by a fundamental process which incorporates both financial valuation and ESG analysis of material non-financial factors.

## Monthly Highlights

Asian markets delivered positive returns during August, reversing much of July's weakness.

During the month, the Philippines and Korea both increased rates by 25bp to 5.0% and 3.0% respectively.

Q2 GDP grew 12.9% in Taiwan, 5.3% in Indonesia and 7.8% in India.

We switched Great Wall Motor to Geely (China) and exited Cebu Air (Philippines).

Past investment performance is not a reliable indicator of future results.

(1) NAV prices shown in currencies other than the base currency (USD) are indicative and unofficial. They are for guidance only, and no assurance can be given as to their accuracy. The official NAV for all share classes is calculated and published in USD by our Administrator CACEIS. (2) Small Cap (<\$2bn), Mid Cap (\$2bn to \$10bn), Large Cap (\$10bn to \$50bn), Mega Cap (>\$50bn). (3) Where the share class has not been running for 3 years, the volatility figure displayed is since the inception of the share class. (4) Average turnover of holdings (annualised) since the fund's inception. (5) Performance from August 2020 is shown to illustrate the impact of changes made to the investment process (it does not represent the full performance history of the strategy). The ETF shown is the iShares AC Asia ex Japan ETF, used for illustrative and comparative purposes only. It does not constitute the fund's benchmark. The Fund is actively managed. Returns may increase or decrease as a result of exchange rate fluctuations. Past investment performance is not a reliable indicator of future returns.
