PERFORMANCE CONTRIBUTORS AND DETRACTORS

Asian markets delivered marginally positive returns in February in US Dollar terms.

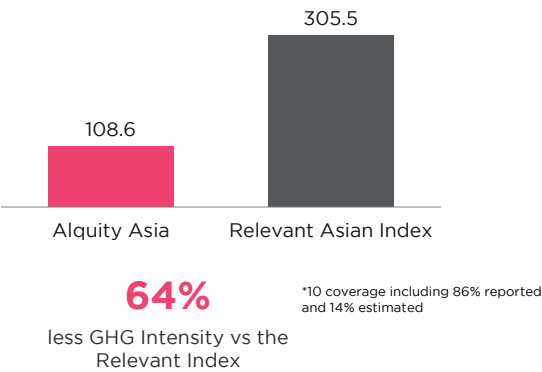

The Fund suffered from the underweight in China, and from not owning Alibaba (for ESG reasons) which rose over 40% in US Dollar terms during the month.

The Fund also suffered from the market weakness in India, especially in small/mid cap companies, and from poor returns in our Korean and Taiwanese Technology companies.

However, stock selection was positive in Malaysia and also notably from Thailand.
