GEOGRAPHIC ALLOCATION

SECTOR ALLOCATION

MONTHLY UPDATE

Emerging markets weakened in November, as investors digested the US election result.

Our outperformance was largely driven by the Consumer Discretionary sector, followed by Communication Services. Financials and Real Estate delivered negative returns.

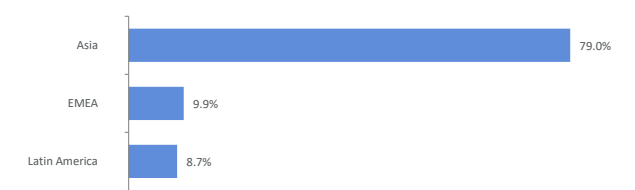

Notable positive contributors came from India (Lemon Tree Hotel & Polycab), Despegar (Latin American online travel portal), China (Full Truck Alliance, Sunny Optical, Tongcheng Travel), Singapore (SEA and Karo) and South Africa (Mr Price).

However, this was partly offset by poor performances from the overweight in the Philippines and Ciputra Development in Indonesia.

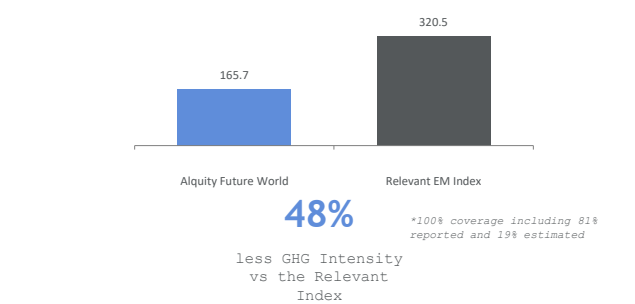

STOCK OF THE MONTH

Macrotech Developers are one of the largest property developers in India. Macrotech are well positioned to benefit from a number of structural growth trends in India including: urbanisation (only ~31% in India), demographics (more than 50% of its population below the age of 25) and from the limited number of high quality developments in supply restricted locations such as Mumbai. Macrotech demonstrate regional best practises for ESG and operate in a low-risk industry - therefore, we scored the company as an A on our proprietary ESG rating system. Notably, in FY24 the company achieved carbon neutrality (scope 1 and 2 emissions) in their operations - primarily accomplished by transitioning to renewable electricity sources for construction activities.

PERFORMANCE CONTRIBUTORS AND DETRACTORS

Emerging markets weakened during October, given uncertainty ahead of the US elections.

Our performance was driven by stock selection, notably in Brazil (Despegar) and Korea (SK Hynix).

Elsewhere, stock selection was also positive in Taiwan, Saudi Arabia & Singapore, but negative in China, the Philippines & Thailand.

ESG: KEY PROGRESS INDICATORS

For all portfolio holdings, we track a set of Key Progress Indicators “KPIs” that represent a general set of transparency and ESG standards we want all firms to meet over time. In each case, the assessment has a financial motivation and an associated positive potential impact in line with the principles of the UN Global Compact. The chart summarises the where we stand in relation to the KPIs for all the portfolio holdings. These KPIs support our engagement activity with our holdings. Please contact us or refer to our Responsible Investment brochure for full details.

FUND OBJECTIVE

The Alquity Future World Fund is equity focused and targets attractive risk-adjusted returns over the long-term by investing in public companies across the emerging and frontier markets. Our portfolio emphasises long-term themes, transparency and alignment of management. This is achieved by a fundamental process which incorporates both financial valuation and Environmental, Social and Governance analysis of material non-financial factors.
