**Average turnover of holdings (annualised) since the fund's inception

*For the purposes of reporting, the unrealised capital gains have been removed from the portfolio characteristics calculations, however remain part of the Net Asset Value calculation.

GEOGRAPHIC ALLOCATION

SECTOR ALLOCATION

MONTHLY UPDATE

In August, the relevant emerging markets benchmark fell by 6.2% in net USD terms, as Fed officials continued to strike a hawkish tone, keeping the door open to a further interest rate hike this year.

In China, the economy remained weak, prompting policymakers to ramp up their stimulus efforts. The PBoC cut interest rates again and regulators announced measures to support households and shore up the property sector. There are some signs stimulus efforts are finally gaining momentum but given the headwinds we remain approximately neutral China on a beta-adjusted basis.

In Thailand, a new PM was finally voted in by parliament, paving the way for the formation of a new government. Pheu Thai PM candidate, Srettha Thavisin, won 482 votes (out of 747), including 152 members of the military appointed Senate. We remain overweight to the market.

In Brazil, the BCB began its easing cycle with a larger than expected 50bp cut, bringing the SELIC rate down to 13.25%. With Congress also giving final approval to Lula's fiscal plan and inflation in the target range, the BCB has room for further 50bp cuts over the coming meetings.

In terms of positioning, we sold out of Hong Kong Exchange, while adding further to Home Product Center in Thailand.

STOCK OF THE MONTH

Saudi Awwal Bank is one of the largest banks in Saudi Arabia, with significant market shares in corporate lending and trade finance, as well as a growing focus on mortgage lending. Thus, the bank benefits from our investment theme of monetizable structural growth given the country's very favourable demographic profile and underpenetrated consumer credit market, which we believe represents a multi-year opportunity. Their strategic partnership with HSBC further provides a competitive advantage for corporate lending (which is highly diversified and not driven by the oil & gas sector). The company has a B rating in our bespoke ESG rating system with a female Chair of the Board, a female Chief Finance Officer and women comprising 40% of the entire executive management, which is one of the highest ratios in the country. The bank targets to reach Net Zero greenhouse gas emissions in its operations in 2035.

PERFORMANCE CONTRIBUTORS AND DETRACTORS

In August, the Alquity Futureworld Y class declined 5.3% in US Dollar terms (net) vs the 6.2% fall in the relevant EM index. This outperformance was driven by both asset allocation and stock selection.

The fund benefited from the overweight in Egypt and the underweight in South Africa, although the overweight in the Philippines was a small negative contributor.

Positive stock selection was derived from Brazil (Mercado Libre), India (Dixon Technologies, Lemon Tree Hotels) and South Korea (Hanon Systems, LG Household & Health), only partly offset by weaker performance from Poland (CCC) and Singapore (SEA)

WATER INTENSITY (TONNES/\$MN)

ESG: KEY PROGRESS INDICATORS

For all portfolio holdings, we track a set of Key Progress Indicators "KPIs" that represent a general set of transparency and ESG standards we want all firms to meet over time. In each case, the assessment has a financial motivation and an associated positive potential impact in line with the principles of the UN Global Compact. The chart summarises the where we stand in relation to the KPIs for all the portfolio holdings. These KPIs support our engagement activity with our holdings. Please contact us or refer to our Responsible Investment brochure for full details.

FUND OBJECTIVE

The Alquity Future World Fund is equity focused and targets attractive risk-adjusted returns over the long-term by investing in public companies across the emerging and frontier markets. Our portfolio emphasises long-term themes, transparency and alignment of management. This is achieved by a fundamental process which incorporates both financial valuation and Environmental, Social and Governance analysis of material non-financial factors.
