INVESTMENT OBJECTIVE

The Alquity Global Impact Fund aims to deliver sustainable long-term returns by prioritising companies that are ESG Leaders and those that provide products and services that are consistent with achieving the UN Sustainable Development Goals (UN SDGs). The Fund excludes companies with business in Tobacco, Alcohol, Soft Drinks, Adult Entertainment, Gambling, Civilian Firearms or Weapons, Fossil Fuels, non-renewable Utilities, resource-intensive Construction Materials and Fast Fashion.

Our proprietary data models help us to build a consistent and targeted portfolio that will deliver the broad beta of the relevant global index with positive SDG outcomes, and tilted towards the stocks with the strongest equity and country macro factors. This means the fund targets superior risk-adjusted returns; outperforming relevant global stock indices whilst delivering a positive impact in areas such as carbon intensity, gender equality, and responsible consumption.

IMPACT DELIVERED IN THREE WAYS

- Our quantitative approach explicitly targets the portfolio's environmental and social footprint with high ESG quality companies that generate a positive outcome to the environment and society
- A minimum of 50% of the portfolio is invested in companies with at least 20% of their revenues coming from products that provide tangible progress towards key sustainability themes
- 10% of the fund fees are donated to social development projects to help the most disadvantaged in society to participate in sustainable and just economic growth

**Total Allocation to Sustainable Solutions**  
(at least 20% of revenues come from sustainable solutions): **49.0%**

The chart shows the portfolio allocation to Sustainable Impact themes based on the underlying revenues of each company from products or services that are aligned with achieving the UN SDGs, aggregated at fund level. All remaining holdings have at least a minimum of 5% revenues from sustainable activities.

\*Sustainalytics' assessment of a company's ESG Risk Score relative to a Sustainalytics' subindustry, expressed as a percentage rank, with 1% representing the company with the lowest ESG Risk Score and 100% with the highest ESG Risk Score in the subindustry.

## ENVIRONMENTAL IMPACT

### CARBON FOOTPRINT

Carbon Intensity per \$1M revenues (tons CO2e / \$M)

### RESPONSIBLE CONSUMPTION

Waste generated per \$1M revenues (tons waste / \$M)

### WATER STRESS

Water withdrawal per \$1M revenues (m3 / \$M)

98% of the portfolio's current water intensity is represented by Meridian Energy, the largest renewable electricity generator in New Zealand, which uses 75% hydropower. New Zealand is a low water stress country based on the Water Resource Institute's classification

Values for 2022 refer to the quarterly average for each impact metric.

## SOCIAL IMPACT: SPECIAL FOCUS ON EQUALITY

### REDUCE INEQUALITY

30% Women on Board of Directors

22% Women in Senior Management

The chart shows the percentage of female employees at company levels. We are seeing progress on gender equality on boards mainly due to regulatory measures and investors pressure, but change is much slower at the senior management level.

### Equality Opportunities and Diversity of workforce

81% of our companies have made a proactive commitment to ensure non-discrimination against any type of demographic group

### Gender pay

42% of our companies disclose quantitative gender pay gap data

## STRONG CORPORATE GOVERNANCE

### STRONG INSTITUTIONS

73% fund's average percentage of independent board of directors

## DIRECT IMPACT BY TRANSFORMING LIVES

Alquity's unique virtuous circle business model enables us to enhance our portfolio impact by directly supporting social development projects in the regions in which we invest. The Alquity business donates 10% of all fee revenues to the Alquity Transforming Lives Foundation, an independent UK registered charity. To date the business has donated over US\$2.4m and transformed over 65,000 lives through the projects.

## FEATURED PROJECT: PHOOL, INDIA

Flowers are a big part of religious rituals in India. It is estimated that approximately 800 million tonnes of flowers are offered annually across the temples, mosques and gurudwara in India. These generous offerings turn into colossal waste and is detrimental for our environment. Phool collects discarded flowers to keep them out of the water supply, then "flower-cycles" them into charcoal-free incense. The enterprise employs women from the lower social and economic strata, where they collect 11.8 tonnes of flowers on a daily basis from more than 130 temples and mosques. Our support is helping transform 235 lives (both directly and indirectly) through the provision of dignified employment and sustainable incomes.
