INVESTMENT OBJECTIVE

The Alquity Global Impact Fund aims to deliver sustainable long-term returns by prioritising companies that are ESG Leaders and those that provide products and services that are consistent with achieving the UN Sustainable Development Goals (UN SDGs). The Fund excludes companies with business in Tobacco, Alcohol, Soft Drinks, Adult Entertainment, Gambling, Civilian Firearms or Weapons, Fossil Fuels, non-renewable Utilities, resource-intensive Construction Materials and Fast Fashion.

Our proprietary data models help us to build a consistent and targeted portfolio that will deliver the broad beta of the relevant global index with positive SDG outcomes, and tilted towards the stocks with the strongest equity and country macro factors. This means the fund targets superior risk-adjusted returns; outperforming relevant global stock indices whilst delivering a positive impact in areas such as carbon intensity, gender equality, and responsible consumption.

FEATURED PROJECT: PHOOL, INDIA

Flowers are a big part of religious rituals in India. It is estimated that approximately 800 million tonnes of flowers are offered annually across the temples, mosques and gurdwara in India. These generous offerings turn into colossal waste and is detrimental for our environment. Phool collects discarded flowers to keep them out of the water supply, then "flower-cycles" them into charcoal-free incense. The enterprise employs women from the lower social and economic strata, where they collect 11.8 tonnes of flowers on a daily basis from more than 130 temples and mosques. Our support is helping transform 235 lives (both directly and indirectly) through the provision of dignified employment and sustainable incomes.
