MONTHLY UPDATE

Indian markets rose during April, as investors continued to increasingly appreciate the country's domestic growth potential.

India cut interest rates to 6% (from 6.25% previously), and consumer price inflation declined further from 3.6% to 3.3% yoy.

The weather forecasting agencies, IMD and Skymet, have respectively forecast above normal and normal rainfall for 2025, which bodes well for the agriculture sector and inflation. Consequently, rural consumption should remain buoyant.

During the month we exited Kajaria Ceramics and added Zinka Logistics.

PERFORMANCE CONTRIBUTORS AND DETRACTORS

Indian markets rose again during April, as investors increasingly appreciated the country's domestic growth potential.

The fund suffered from the underweight in the Communication Services and Energy sectors, but this was largely offset by the overweight in the Consumer Discretionary sector.

At a stock level, the largest positive contributor was Samhi Hotels (after a period of weakness, which was unjustified in our view), followed by Shilchar Technologies (electrical equipment manufacturer) and Vmart Retail. However the performance of Aditya Vision (consumer electronics retailer), Mahindra Financial Services and Dabur (consumer staples) were disappointing.
