MONTHLY UPDATE

Indian markets suffered from volatility and profit taking during the October corporate earnings season.

Modi confounded expectations and won an historic third term in the Haryana state elections. Indian voters have a long standing habit of switching between parties at each state election, so a third consecutive BJP victory is unprecedented, especially as the party increased their seat tally from 40 (in 2019) to 48.

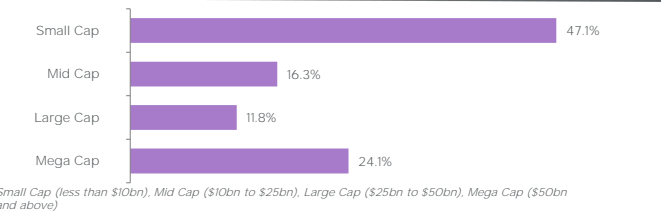

The Reserve Bank of India changed their stance from 'withdrawal of accommodation' to 'neutral' which we believe is a pre-cursor to interest rate cuts in the coming months.

We added Le Travenues Technology (Ixigo) to the portfolio, as the company is a major beneficiary of the strong structural trends in the Indian travel industry.

PERFORMANCE CONTRIBUTORS AND DETRACTORS

Indian markets suffered from volatility and profit taking during the October corporate earnings season.

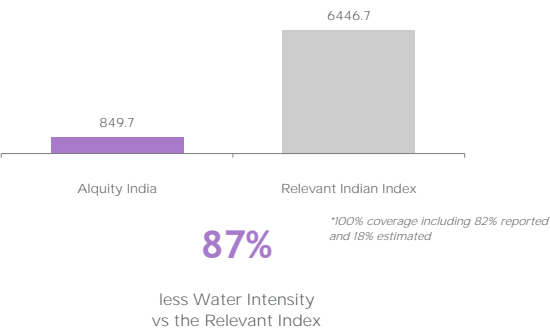

At a sector level, the fund benefited from the zero weighting in the Energy & Utilities sectors, but suffered from the overweight to the Consumer Discretionary sector (although this was offset by strong performance within the sector).

At a stock level, strong gains were registered from Skipper Ltd (industrial equipment), Vmart (retail) and Oberoi Realty. However, this was partly offset by the poor performance of Indusind Bank, Go Fashion (after strong gains in September) and Cholamandalam Finance.
