MONTHLY UPDATE

Consumer price inflation declined to 3.5% yoy in July, versus 5.1% in June. This represents the lowest level since 2019.

Monsoon rainfall is now 107% of the long term average, which augurs well for the rural and agriculture sectors.

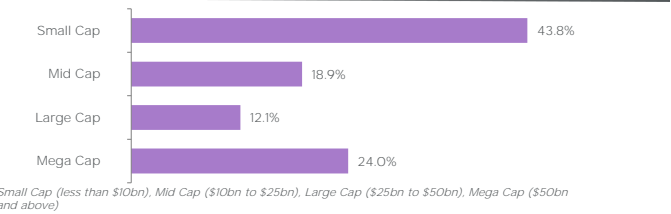

The Reserve Bank of India maintained interest rates at 6.5%, but we expect the first of several cuts in the coming months.

During August, we exited Dixon Technologies on valuation concerns and initiated a position in Shilchar Technologies.

CAPITALISATION

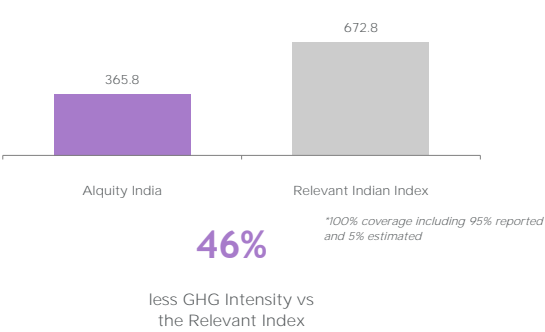

PERFORMANCE CONTRIBUTORS AND DETRACTORS

The Alquity India Fund was buffeted by two factors in August. Firstly, the impact of increased rates of capital gains tax announced in the post-election budget. Secondly, a number of our companies' earnings suffered from short-term impacts, such as adverse product mix changes or short term disruptions. Examples include Prince Pipes, Lemon Tree Hotels and Astral Ltd. Management guidance supports our firm expectations of a stronger second half of the year.

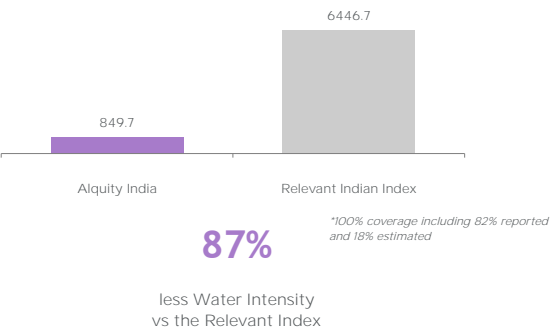

Furthermore, two stocks that we do not own – Trent and Bharti Airtel – also performed strongly. We have valuation concerns on the former, and the latter does not meet our standards of Governance.

However, the Fund did benefit from strong gains from Samhi Hotels, Amrutanjan (consumer staple) and Unominda (auto parts). All of these are out-of-index positions.

ESG: KEY PROGRESS INDICATORS

For all portfolio holdings, we track a set of Key Progress Indicators "KPIs" that represent a general set of transparency and ESG standards we want all firms to meet over time. In each case, the assessment has a financial motivation and an associated positive potential impact in line with the principles of the UN Global Compact. The chart summarises the where we stand in relation to the KPIs for all the portfolio holdings. These KPIs support our engagement activity with our holdings. Please contact us or refer to our Responsible Investment brochure for full details.
