## MONTHLY UPDATE

Markets continued to rally in July, as better inflation data in the US brought hope that the Fed hiking cycle is nearing an end. Over the month, the Indian benchmark rose by another 3.0% in net USD terms.

Indian CPI inflation edged back up to 4.8% y/y, from a two-year low of 4.3% the month before, keeping it comfortably within the RBI's 2-6% target range. Core CPI inflation also remains steady, close to 5%, while WPI inflation fell to -4.1% y/y, its lowest since October 2015.

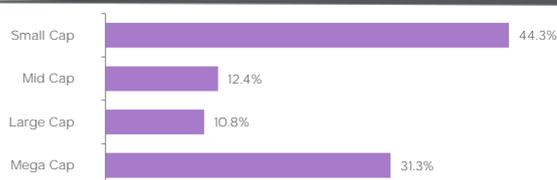

With much of the country experiencing normal monsoon rains at least for the season to date, CPI inflation should remain contained in the target range ahead, allowing the RBI to stay on hold over the coming months.

During the month, we added a new name, Dreamfolks, India's largest airport service aggregator platform. We also trimmed a few of the small and mid-size names that had done particularly well, including Ion Exchange and Polycab.

The chart summarises the where we stand in relation to the KPIs for all the portfolio holdings. These KPIs support our engagement activity with our holdings.
