MONTHLY UPDATE

The Indian benchmark fell by 1.9% in net USD terms in August, as Fed officials continued to strike a hawkish tone, keeping the door open to a further interest rate hike this year.

In India, GDP growth rose to 7.8% y/y in Q2, from 6.1% in Q1, the fastest pace in a year. The service sector remained the main driver of growth, supported by robust consumer spending and rising government capex. For the fiscal year, the RBI expects the economy to grow by 6.5%.

CPI inflation rose to a 15-month high of 7.4% y/y in July, from 4.8% the month before, driven by a spike in food prices. Inflation pressures elsewhere remained well contained, however, and core inflation moderated to 4.9% y/y, its lowest since April 2020.

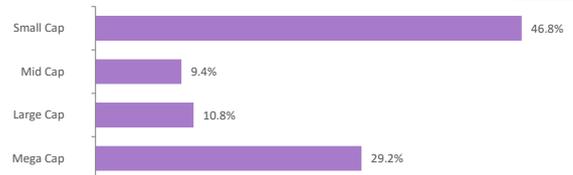

The RBI stayed on hold in August, and with some food prices already correcting down sharply and core inflation contained, it should have room to keep interest rates unchanged ahead.

In terms of positioning, we reduced our rural exposure - Hindustan Unilever and Mahindra and Mahindra - during the month, due to the patchy monsoon.

ESG: KEY PROGRESS INDICATORS

For all portfolio holdings, we track a set of Key Progress Indicators "KPIs" that represent a general set of transparency and ESG standards we want all firms to meet over time. In each case, the assessment has a financial motivation and an associated positive potential impact in line with the principles of the UN Global Compact. The chart summarises the where we stand in relation to the KPIs for all the portfolio holdings. These KPIs support our engagement activity with our holdings. Please contact us or refer to our Responsible Investment brochure for full details.
