Fund Objective
The Alquity Future World Fund is equity focused and targets attractive risk-adjusted returns over the long-term by investing in public companies across the emerging and frontier markets. Our portfolio emphasises long-term themes, transparency and alignment of management. This is achieved by a fundamental process, which incorporates both financial valuation and ESG analysis of material non-financial factors.

Monthly Highlights
Emerging markets weakened marginally in June despite easing tensions in the Gulf.
Central bank policy diverged across countries: Brazil cut interest rates by 25bps to 14.25%, while the Philippines raised rates by 25bps to 4.75% and Indonesia increased rates by a further 50bps to 5.75%.
Chinese retail sales were lacklustre in May, falling by 0.6% year on year.
During the month, we continued to diversify our holdings in the Technology Hardware sector. Furthermore, we rotated away from rural-sensitive companies in India and exited our position in Furlis (Greece).

Stock of the Month
eMemory Technology is based in Taiwan, and is a leader in the field of memory and security design. The company has exposure to multiple monetisable structural growth avenues, such as the increasing demand for AI and the longstanding trend for chips to become smaller and more advanced. eMemory has a C rating on our ESG rating system, has implemented numerous environmental initiatives and has continued to improve ESG disclosures over time.
