1	2	3	4	5	**6**	7

This risk and reward indicator illustrates where the Fund is positioned in terms of its possible risk and reward. The higher the Fund's position on this scale, the greater the possible reward, but also the greater risk of losing money. This risk indicator is calculated using historical data, which cannot be used as a prediction for the future. Therefore the risk classification may change over time. Even if the Fund is in the lowest risk class you can lose money, as no investments are entirely risk free.

This Fund is in category 6 since the price changes of the Fund have been high in the past.

The following risks are not fully reflected in the above classification but still influence the Compartment's value. Further information about risk can be found in the prospectus which is available at https://alquity.com/.
