

WE ENSURE OUR TRAVEL LEAVES NO FOOTPRINTS

Source: Alquity, as of 31st March 2025

Alquity

During 2024, we generated **72 tonnes** of GHG emissions from **essential business travel** that have now **been offset.**

Source: Alquity, as of 31st March 2025

We have purchased carbon credits to **permanently prevent** the world's **most potent greenhouse and ozone-depleting substances (ODS)** from releasing into the atmosphere...

... by gathering and safely disposing of **refrigerant stockpiles** in countries like Ghana and Guatemala...

Source: Tradewater, as of 31st March 2025

... or plugging
abandoned oil wells
in the US that **leak**
methane...

Source: Tradewater, as of 31st March 2025

In addition to **mitigating climate change**, preventing these ODS from being released into the atmosphere also helps **protect the ozone layer**.
